

Cable distribution cabinets from EFEN -  
robust, elegant and can be individually equipped

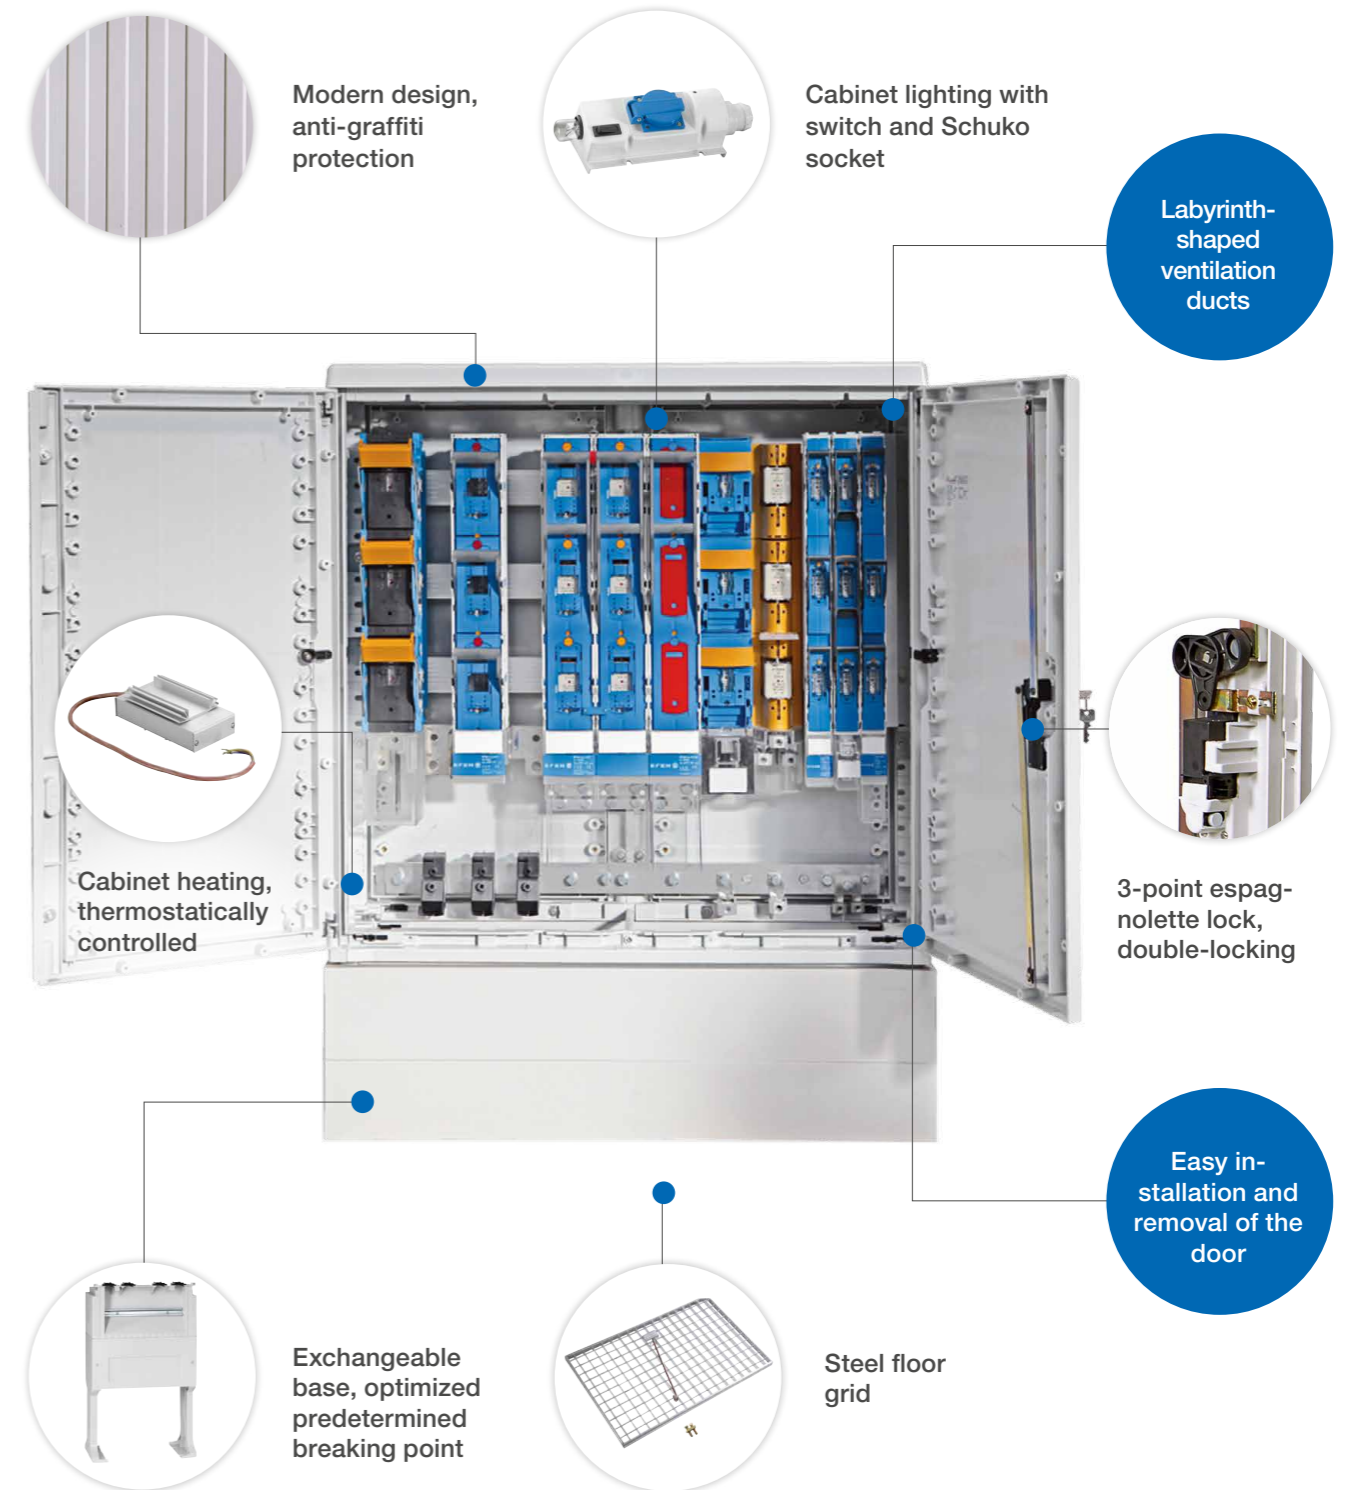

# Safe and elegant solutions

As a specialist for safety interfaces, EFEN has extended its range of solutions for power distribution grids: The distribution systems provide you with complete solutions from a single source, ready for tomorrow's smart power grid.

Whether in power distribution or in industry, as distribution cabinets for safe power supply or as control cabinets for pumps and lighting systems – EFEN's standardized distribution cabinets comply with DIN EN 61439 and can be extended to meet specific requirements.

Components and enclosures from a single source	Requirement-specific extension	State of the art technology
<p>You receive all components for your cable distribution cabinet directly from our factory and can rely on the usual EFEN quality:</p> <ul style="list-style-type: none"> <li>• Solid construction</li> <li>• Modern design</li> <li>• Short delivery times</li> <li>• High availability</li> </ul>	<p>With their modular design, the distribution systems from EFEN offer various application possibilities.</p> <ul style="list-style-type: none"> <li>• NH fuse-rails</li> <li>• NH fuse-switches</li> <li>• Blanking covers</li> <li>• PEN connections</li> <li>• Cabinet lighting</li> <li>• Cabinet heating</li> </ul>	<p>EFEN cable distribution cabinets meet the strict requirements of DIN EN 61439.</p> <ul style="list-style-type: none"> <li>• Glass-fibre-reinforced polyester cabinet</li> <li>• Burst/arcing protection</li> <li>• Optionally available with UV protection</li> </ul>

The modular system of our cable distribution cabinets with 4 widths and 3 heights offers you a wide range of applications.
