

## IP2X Feed Clamp

The IP2X feed clamp represents a handy and space-saving solution for the feeding or tapping of 185-mm busbars. The feed clamp and its associated busbar cover are easily assembled by means of contact hooks, with no drilling required.

Maximum rated operational current:	630 A
Maximum busbar dimensions:	10 mm
Tightening torque of hooks:	20 Nm
Tightening torque of V2MD clamp:	35 Nm
Clamping range:	25-300 se/re/sm 35-240 sm
Conductor material:	Cu/Al
Tool:	Allen key SW5 and SW6

The IP2X busbar cover provides protection against accidental contact with the busbar. The copper bar must be fully de-energized before mounting the cover.

Description	Size	Amps	Order No.	PU	PG
Busbar cover IP20	00-3		36329-0010	1	E <sup>3</sup> acc
Feed clamp IP2X V2MD 240sm/300rm (1 kit = 3 pieces)	00-3		36846-0040	1
